

Dear Judge

My Name is Henrietta Zeigler and I would like to speak on the behalf of My Boy friend Denzal Stewart. Let me start off by saying that he is not a threat to the community. Because the only thing that he has been focusing on is his music and taking care of his family. He been turning his life around by inviting some of the younger kids to listen to his music and helping to inspire them into making there own music. He has made and recorded almost 10 songs since he been released almost 2 years ago and since then he has not been in trouble. Since that is no place anyone would want to be at but I hope you can find it in your heart and it would mean a lot to me and him if you can help him by giving him bond or dis miss the case against him. Have a wonderful day and thank you.

To Whom It May Concern:

I'm writing on behalf of Denzal Stewart. I've known Denzal since he was a child. I've seen him grow up. What I know of him is that he has helped to serve his community and his church. He has helped at Summer Camp with our young people and has helped in any way asked of him, including helping fix cars of community members in need. I believe he is a productive member of society and not a threat to the community. More so, he has the potential to be a great asset to the community.

Thank you for considering this.

Grace and Peace,

To Whom It May Concern

I have known Denzal Stewart for a year and some months and he is the father of our unborn child we are expecting together and a good boyfriend and stepfather to my kids and a good father to his kids. Denzal Stewart is not a danger to the community and he is doing positive things, which are his music that he is working on everyday and working on getting a job and getting his life together. I know he is a good person because he always helps others out and making sure he is taking good care of his grandmother and his mother and I have been with him everyday and he is not a danger to the community or anybody, I work with children and have a degree if I feel like he is a danger I wouldn't be with him, so Denzal is a good person and has a positive mind and goals to be successful in life and focusing on his life and being a good father to his kids and my kids and our unborn child we are expecting together, am helping him go back to school and further his education like I am so he will continue doing positive things and stay out of trouble and Denzal Stewart is not a danger to the community,

SINCERELY,
